

Interboat 17

Although the Interboat 17 is the first model in the series, we can not speak of an entry model, on the contrary! The 17 offers no less than for 8 people a comfortable seat and proves its stability with the certification for coastal waters. The price of the standard very complete version can be described as very competitive. Of course also available with electric propulsion!

The interior of the Interboat 17 consists of high-quality materials. For example, you have the choice of a solid teak wood floor or a maintenance-free composite on the floor, boarding steps and the plate on the motorcasing. Large accessible areas under the seats offers plenty of storage space. The standard built-in and insulated fridge under the front seat has a capacity of no less than 75 litres. The spacious cockpit offers comfortable seating for 8 people. The high backrest and deep seats provide hours of cruising pleasure. Additional cushions can be placed between the U-shaped bench in the foreship, creating a large sunbed.

The Interboat 17 is your access to the Sloepen world of INTERBOAT. Despite the compact dimensions, it offers space for up to 8 people. It is very stable and is CE certified for coastal waters (category C 8 people). The operation is childishly simple and due to the low clearance height of 90 cm. you can discover the most beautiful and remote waters. With a weight of 800 kg. it can easily be trailered behind a medium sized car. A real family boat.

Specification

Lengte	< 10
